Iron- fortified infant cereal (1)	0-3 Tbsp.					
Fruit, vegetable or both (2) (3)	0-3Tbsp					
<b>Eve Snack</b>						
Iron-fortified formula or breastmilk	4-6 fl.oz.					

\* Introduce only one new food at a time for 7 days before starting another new food. (see 0-3 menu planner for developmental cues).

- (1) Only mix cereal with formula or breastmilk and serve with spoon. Start with rice, oats then barley infant cereals. No wheat or mixed cereals until 8 or 9 months old.
- (2) Start vegetables after 6 months of age when the baby readily accepts 2-3 Tbsp. of infant cereal at each meal. Include green beans, green peas, squash, sweet potatoes, carrots, beets and spinach.
- (3) After a variety of vegetables are introduced without any allergic reactions, start fruits. Include applesauce, apricots, bananas, peaches, pears and plums.
